

# Don't Let the "TR" Fool You: The DSM-5-TR is Far More Than a Text Revision

Live Webinar via Zoom — Fri. Aug 26<sup>th</sup> — 1:00 – 3:00 PM CDT  
(\*On-Demand option available)

The Nebraska  
**PSYCHOLOGICAL**  
Association

**This workshop is presented by the Nebraska Psychological Association and a coalition of over 35 State, Provincial and Territorial Psychological Associations.**

This workshop overviews the key diagnostic developments and departures of the DSM-5-TR in relation to its predecessor, the DSM-5. Critical diagnostic developments in the Text Revision include the return of Mood Disorders, the inclusion of ICD-10 codes for Suicidal Behavior and Nonsuicidal Self-Injury, and the addition of Prolonged Grief Disorder, among others. These inclusions are joined by diagnostic revisions or clarifications to dozens of additional disorders, in addition to more comprehensive attention to issues of race, equity, and discrimination.

## Presenter Dr. Greg Neimeyer

**Dr. Greg Neimeyer** is professor emeritus in the Department of Psychology at the University of Florida, where he served as Director of Training and Graduate Coordinator of the doctoral training programs and taught courses on the DSM, the ICD, and psychopathology. A Fellow of the American Psychological Association, Dr. Neimeyer is also the recipient of its Award for Outstanding Contributions to Career and Personality Research. Dr. Neimeyer was invited by the American Psychiatric Association to serve as one of two psychologists originally trained on the DSM-5, and subsequently has provided hundreds of professional trainings on the DSM and ICD both nationally and internationally. The author of more than 200 scholarly articles and 10 books, Dr. Neimeyer is a lifetime inductee into the Academy of Distinguished Teaching Scholars. He currently serves as the Director of the Office of Continuing Education in Psychology at the American Psychological Association in Washington, D.C.

## Learning Objectives:

At the end of this presentation, participants will be able to:

1. Identify at least three new inclusions in the DSM-5-TR
2. Discuss the rationale for at least three of the diagnostic manual's novel inclusions or revisions.
3. Distinguish grief from depression.
4. Describe the prevalence and criteria for Prolonged Grief Disorder.
5. Explain the rationale for the change from Gender Identity Disorder to Gender Dysphoria.
6. Compare and contrast the DSM-5-TR with the DSM-5 and the ICD-11.

## Continuing Education

The Nebraska Psychological Association is approved by the American Psychological Association to sponsor continuing education for psychologists. The Nebraska Psychological Association maintains responsibility for this program and its contents. **Participants attending the live webinar** can receive 2 CEs for psychologists, with full attendance required. No partial credit is awarded; late arrival or early departure will preclude awarding of CE credits for psychologists attending the live webinar. Those arriving more than 15 minutes after the scheduled start time or leaving before the workshop is completed will not receive CE credits.

**Participants selecting the On-Demand option** can receive 2 CEs for psychologists upon full viewing of the video and successful completion of the post-test. CEs for those completing the On-Demand option will be awarded by the Hawaii Psychological Association which is an Approved Continuing Education Provider for Nebraska CEs (See NE DHHS 172 NAC 155, 014.02(D)(ii)(11)).

This program meets the criteria of an approved continuing education program for mental health practice.
